Modul:Template link general/Doku

Dies ist die Dokumentationsseite für Modul:Template link general

Vorlage:Lua

Implements Vorlage:Tl and other templates in its family

Basic usage

```
{{#invoke:template link general|main}}
```

This module is used by Vorlage:T and related templates to display links to templates. It is similar to Vorlage:T but with additional formatting options and the ability to include parameters in the display. See Vorlage:Slink for the full list, which can be enabled by passing any value to them (such as "on", "yes", etc).
