Usage

```
{{legend|background-color|caption|outline=outline color|border=css border}}
```

- *background-color* is passed to the **css** background-color property of the color box.
- The optional *outline* parameter is the color of the outline around the box.
- The optional *border* argument which overrides the *outline* argument and sets the **css** description (e.g., `1px solid #aaa`) of the border that will be drawn around the box.

Examples

Use in text

```

{{legend|black|Africa}}
{{legend|green|Americas}}
{{legend|blue|Oceania}}
{{legend|#ffa|Europe|outline=silver}}
{{legend|#ff2800|Asia|outline=#A2A9B1}}  (#A2A9B1 is the wikitables border color.)
  
```

	Africa
	Americas
	Oceania
	Europe
	Asia

Use in captions

Vorlage:Markup

Full parameter list

```

{{legend
| [legend box's colo(u)r]
| [text following legend box]
| outline = <!--colo(u)r of border around legend box-->
| border = <!--use to specify custom CSS styling for border (overrides 'outline
| color = <!--colo(u)r of 'text'-->
| size = <!--'text' font-size-->
| text = <!--to place text inside the legend box-->
}}

```

Limitations

Using certain special characters in [Vorlage:Para](#) that have meaning in wikitext can cause unexpected results. To use [Vorlage:Asterisk](#) in [Vorlage:Para](#), use [Vorlage:Para](#). To use <#> in [Vorlage:Para](#), use [Vorlage:Para](#).
